

GET A JUMP ON YOUR FALL PLANS!

Contact Student Experience NOW to have your paid internship in place by the time school begins.

Student Experience helps college students interested in the helping professions to gain valuable hands-on paid work experience related to their field of study.

What can you expect?

Each experience is as unique as the client you are placed with for your internship. You can expect to be matched with an individual client with special needs related to your area of study and work with them in their home. The majority of our clients are children or young adults. You will be supervised by a nurse and follow a care plan to assist your client in completing skills of daily living such as:

- Assist your client with range of motion or flexibility exercises
- Attend physical or occupational therapy sessions
- Meal planning and preparation
- Participate in community activities
- Social skills and communication development

Your commitment...

- Work a minimum of 12-15 hours per week for at least two semesters and have access to a vehicle.

Our commitment to you...

- *Starting at \$7.00 - \$8.50 per hour with the opportunity for a pay raise every 90 days up to \$10.00 per hour.*
- Earn extra money through our scholarship, textbook reimbursement and recognition awards programs.
- Participate in the Foundations Model to build self-awareness and competence through experience and reflection—it's free career coaching.

How to apply:

1. Visit www.studentexperience.com and complete a short online application.
2. Participate in a telephone interview to explore whether or not Student Experience is a good fit for you.
